Prizba

Prizba Korcula is a summer seaside resort which is situated on the south coast of the island of Korcula. Prizba spreads 5 kilometres along the island of Korcula coast, starting from the bay of Grscica and extending towards the small peninsulas Priscapac and Vinacac. It consists of several bays and a picturesque peninsula called Ratak. There are several restaurants and shops in this area. The shops are well equipped and in the restaurants you will find the first class offer of all Korcula's specialties: fish, meat, vegetables and wines.

The best part of Prizba are four little islets. (Vrhovnjak, Sridnjak, Crklica i Stupa). They are situated 800 meters far from the island of Korcula coast. These islets are uninhabited and they are covered with pine trees with many nice places for swimming and enjoying the sun or resting in the deep shade of the trees. There can also be found specialties, delicious shells and sea urchins, which can be consumed directly from the sea.

Prizba is unique and well known as a place where the best apartments of the island of Korcula are situated. Prizba is suitable for keeping boats as well. You can also rent a boat to visit the most beautiful part of Prizba, the nearby islets.

Travel

Here are the possibilities and advices on how to get to Korcula, travelling in Croatia, and route of every ferry to Korcula:

Taking a ferry to Korcula

Ferries to Korcula sail from and to the following places on the island:

Line	
Split – Vela Luka	Jadrolinija
Orebić – Dominče (Korčula)	Jadrolinija
Ploče – Trpanj (peninsula Pelješac)	Jadrolinija

Important notes for the ferries in Croatia and the ones that go to Korcula:

It is advisable to arrive to the line for the ferry at least one hour or more before the departure time in order to avoid the crowd. This is important for the ferry lines from Split, Drvenik and Ploče. Ferry from Ploče to Trpanj on Pelješac doesn't save any time or money but only the driving time.
